

SCHWABEN CAPITAL GROUP LIMITED

Schwaben Capital Group Limited is an investment management and investment banking firm. Our group caters to high-end entrepreneurs, affluent executives and families. We feel that these individuals demand more attention to the details of their circumstances. The company has two divisions:

"Schwaben Investment Counsel" is the investment management division and the cornerstone of the Schwaben Capital Group. At Schwaben Investment Counsel we manage investment portfolios for an affluent clientele. Our investment philosophy is to invest in good businesses for the long term, to pay close attention to the details of our client's circumstances and match the investments to their needs.

"Schwaben Capital Markets" provides investment banking advise to private companies. In our Capital Markets division we intentionally deal only in private company mandates as we feel this is where we can add value to our own clients businesses and at the same time avoid any conflicts of

interest that might arise from managing and advising on public companies.

The principals we use in managing portfolios also apply to how we advise our capital markets clients in private companies. We feel that having closer contact with actual businesses will give us a better understanding of the public companies we invest in and vice versa, insight into public companies gives us a better "finger on the pulse" for the private companies we advise.

Schwaben Capital Group Limited is registered as a Portfolio Manager and an Exempt Market Dealer with the Ontario Securities Commission in the Province of Ontario.

We are always pleased to meet with you to determine if we may be able to further enhance your current investment manage-

ment arrangements or assist you in any other financial affairs.
